

CONCORD PARK NEIGHBORHOOD EMERGENCY RESPONSE

Our plan...

Is to prepare our neighborhood for an earthquake or other disaster by becoming members of the **Community Emergency Response Team**, and by implementing the **Map Your Neighborhood** program. By making a plan, we will be more able to protect our neighborhood and provide an immediate source of help.

Our CERT organization

Nik Broman and Dave Pitman are the Neighborhood Team Co-Captains. The other neighbors that are trained for CERT are Michele Frith of Lynn Ave., and Karen Miller of Todd Ave.

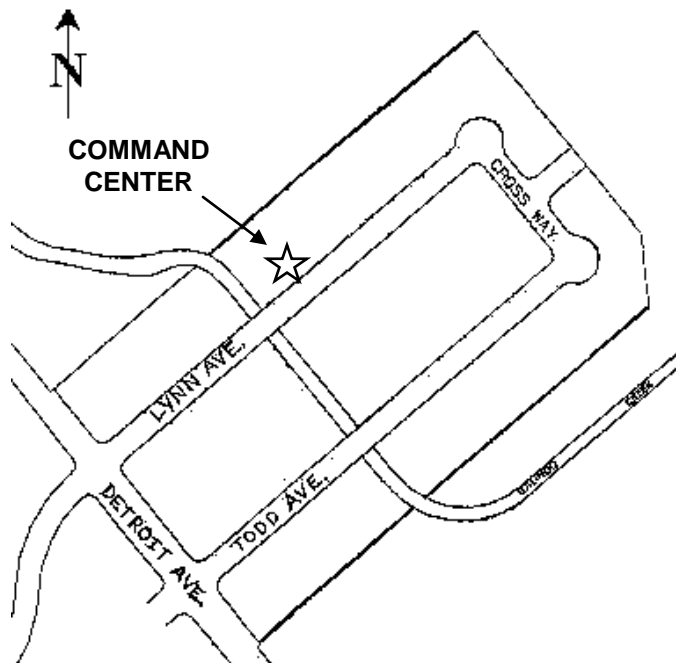

Map Your Neighborhood

We need to get information from you, our neighbors: Who has special needs and will require extra help in a disaster? Who has special skills helpful in an emergency? Who has rescue tools, fire extinguishers and other equipment, or has first aid kits and other supplies for a disaster? For each residence, we would like to list the names of adults, children, and pets, your contact information and location of the gas meter.

In case of emergency or disaster

First secure your home and family. Next, CERT members and any volunteers are requested to report to the residence of a Neighborhood Team Captain (star on map). This location will be the Command Center and the gathering site for our neighborhood. From there, teams will be sent out

to assess damage, check on people home alone, suppress fires and provide first aid.
